SOLOMON COLORS INC

LYTHIC

Project: Marks & Spencer Grocery Store **Profile:** Lythic Polished Concrete Products

Materials: Lythic Densifier Lythic Protector Lythic Cleaner

Location: Great Britain

Overview: Marks & Spencer is one of the leading grocery stores in the UK. They are well known for high quality and innovation. A nationwide initiative was undertaken to remodel the flagship locations with 100% sustainable solutions.

Lythic Densifiers were used to help with the fast track schedule for polishing the floors. Due to the 100% reactive colloidal silica the densification is almost instant and gels within minutes. Therefore no downtime during polishing was important to the client to ensure maximum efficiency and hardening qualities before polishing.
