# Project Profile

**Project:** Corporate Office Space

**Profile:** Lythic Polished Concrete Products

**Materials:** Lythic Densifier  
Lythic XL Densifier  
Lythic SPD Protector  
Lythic Cleaner

**Location:** United States

**Overview:** The office space was designed with sustainable efficiency goals to reduce environmental impact including long term energy consumption.

Large windows, white ecofriendly paints and reflective polished concrete allow this space to use low energy led lighting. The floor was sealed with Lythic SPD Protector to minimize future maintenance from potential staining. Regular daily cleaning is undertaken with Lythic Cleaner.
