

ColorSelect® Dry Batch System

Bring ColorSelect® accuracy and efficiency to mortar color and cast stone producers with the patented Solomon Colors ColorSelect® Dry Batch System.

SYSTEM

- Designed for bulk mortar producers and dry pigment users of Solomon powder pigments
- Modular design and small footprint
- Dispense a variety of colors with just three primary pigments
- Touch Screen computer based control system
- 50 ft³ custom conical totes with isolation valves and air vibrators for easy pigment flow
- Support base includes a steel grating walkway for safe access during refill tasks
- Nationwide Technical Support available 24/7

DRY BATCHING SYSTEMS

ColorSelect® Dry Batch System

CONTROL

- Color Select systems utilize an easy-to-use, highly accurate, Windows-based touch screen control interface.
- Custom and preset colors are easily accessible from the menu. Reporting and batch ticket printing make system and material management simple.
- Automatic air-driven trolley system with a platform scale and indicator for filling buckets.
- Job stacking and system fault alarms – including missing bucket – minimize the risk of user error.

SPEED & ACCURACY

- Dispense between 12 and 15 pounds of pigment per minute at an accuracy of +/- 0.05 pounds.
- Batch sizes can range between 2 and 20 pounds with included bucket, however, the container can be modified to make larger batches.

SPECIFICATIONS

- Scale accuracy: +/- 0.01 lbs.
- Scale Max Capacity: 200 lbs
- System accuracy: +/- 0.05 lbs.
- Electrical: 110 V, 30 Amp
- Compressed air: 4.5 CFM @ 80-100 PSISl

FOOTPRINT

- 12' x 10' x 16'

REQUIREMENTS

- Electric: 110 V, 30 Amp
- Compressed air: 4.5 CFM @ 80-100 PSI
