

QuickColor® Granular Bagging System (GBS)

Thousands of colors can be created in ColorFlo® Granular pigment from only four primary colors, all while drastically reducing color inventory.

SYSTEM

- Designed for Ready-Mix suppliers and Distributors of ColorFlo® Granular pigment
- User-friendly touch screen interface
- Simple efficient design
- Small footprint: Fits the same space as 4 standard pallets
- Clean color with minimal dusting
- Batches pigment into either re-pulpable bags or re-usable buckets
- System prints a batch ticket after each bag or bucket is produced
- Requires 110V and clean, dry air
- Built-in remote access for real-time technical support and software updates

GRANULAR DISPENSING SYSTEMS
